About me

I am a third-year student majoring in Information Systems at Thuy Loi University, and I live with a strong passion. I believe that technology can change the world, and I am constantly exploring its new potentials. Logical thinking and teamwork spirit have been experienced through practical projects. I am not afraid to face challenges and always ready to present innovative ideas. My goal is to use my knowledge to contribute to the development of the information technology field and together build a better digital future.
